

## Costco Kirkland's Healthy Weight

This diet is very well formulated and is "grain free" – inexpensive – always available – Low fat.

***"Does Sam's have this?"*** Nope.

I recommend it for weight loss in dogs. Feed at ONEQUARTER (1/4) CUP per TEN POUNDS of desired weight – ONCE A DAY for rapid weight loss. Feed 1/4c. per 10lbs for maintenance.

**Example:** You have a 70 pound dog that you want to weigh 60 lbs.

**Calculated:** 6 x ¼ cup of food ONCE per day. (1-1/2 cup of food per day)

I recommend it for Pancreatitis control and remedy for hyperlipidosis. It is also indicated for diabetic dogs. It is of the caliber of food for medical purposes.

WEIGHT	AMOUNT
10 lbs	1/4c. 1x day
15 lbs	Round 1/4c. 1x day
20 lbs	1/2c. 1x day
25 lbs	Round 1/2c. 1x day
30 lbs	3/4c. 1x day
35 lbs	Round 3/4c. 1x day
40 lbs	1 cup 1x day
50 lbs	1-1/4c. 1x day
60 lbs	1-1/2c. 1x day
70 lbs	1-3/4c. 1x day
80 lbs	2c. 1x day
90 lbs	2-1/4c. 1x day
100 lbs	2-1/2c. 1x day
110 lbs	2-3/4c. 1x day

## **The BIGGEST life-extending factor in dog lifespan, is their weight.**

In very small dogs they get big hearts, compressed lungs, and flattened tracheas.

In the big dogs they get hip and spine arthritis, pinched nerves, and other hind leg "myelopathies" - Basically "Down in the back end".
